EDUCATION

- **Siddaganga Institue of Technology** Karnataka,India
Bachelor of Engineering-Artificial Intelligence and Data Science: CGPA 8.4 2020-2024
- **Chinmaya Vidyalaya** Bokaro Steel city ,Jharkhand, India
Class XII; Percentage: 86.2

SKILLS SUMMARY

- **Languages:** C,C++,Python,Html,CSS,Javascript
- **Databases:** MySql,Oracle
- **Frameworks:** Bootstrap,Flask
- **Tools:** Google Colab,VsCode,Replit,Jupyter Notebook, PyQt5 Designer
- **CS Fundamentals:** DSA,Problem Solving, CN,DBMS,OS,OOPS,Cloud Computing,RestApi

EXPERIENCE

- **Web Developer**
Developer Intern Apr 2023
 - Working for **front-end web** application using **HTML/CSS** and **JavaScript** for CMTI Industries Project .
 - Used **SQL** to query and manipulate data in the database, implementing complex queries to retrieve data and generate reports
- **AdLib Arts**
President December 2022
 - The workshop focused on the art of photo editing in Lightroom, a widely renowned software. Over 250 enthusiastic individuals were present, eagerly absorbing my expertise and insights.
 - It was an immensely fulfilling experience to share my knowledge and passion with such an attentive audience..

ACHIEVEMENTS

- Solved **400+** Problems on various coding platforms, 250+ on **Leetcode**, 60+ on **CodeForce**,100+ on **GFG**.
- Achieved the **3 star rating** on leetcode.
- Got selected for **CMTI INDUSTRIAL PROJECT** .
- I have achieved excellence in the Coding Ninja Data Structure and Competitive Programming course.

PROJECTS

- **CoderStudio**
Live Oct 2022
 - The frontend of **CoderStudio** is meticulously crafted using the powerful trio of **HTML**, **CSS**, and **JavaScript**, offering an immersive user experience with captivating visuals and seamless interactivity.
 - **CoderStudio**, a dynamic web application, seamlessly integrates **JavaScript** and **JSON** for efficient backend coordination, ensuring smooth retrieval of **APIs**.
 - It is a web application focusing on various coding contests at different coding platforms.
- **Voice Assistance**
Github Apr 2023 -Jul 2023
 - Developed a **Voice Assistant**, project utilizing PyQt5 for front-end design and Python for back-end functionality.
 - It allows users to give voice commands and provides a convenient and hands-free interaction experience.
- **Nritya Academy**
Replet Link fev 2023
 - Developed a web application for Nirtya Academy, an esteemed dance school, incorporating **HTML**, **CSS**, **JavaScript**, and PHP to elevate its online presence.
 - Enhanced user experience by creating a seamless digital platform, enabling **Nirtya Academy** to showcase its offerings and engage with a wider audience.
